I'm sorry, guys. I never meant to hurt you. Just to destroy everything you ever believed in. No, of course not. It was... uh... porno. Yeah, that's it. Calculon is gonna kill us and it's all everybody else's fault!

New colours in spring fashion 2020

Hey, what kinda party is this? There's no booze and only one hooker. Is today's hectic lifestyle making you tense and impatient? What kind of a father would I be if I said no? Or a guy who burns down a bar for the insurance money!

Public Wishes P.

For public wishlists we should have a self-introduction area (possibly with pic) and a motivation area where the wisher can explain why somebody should give something. Might be e.g. for beneficial causes.

Winnie the Pooh

Hello my friends. I'm a bear and a lot of my wild cousins are in big trouble. Just think about polar bears or pandas. My deepest wish is that people care more about us bears and also a lot of other wild animals who are endangered. In my wish list, you can find a few ideas what you personally could do in order to help.
